Study Tour Report

2018-2019

Tour are very important for the overall development of a student. Educational *visit* offer an uncommon opportunity to perform hands-on learning. It also help bridge the gap between education and hands-on experience .Field visit are recognized as important moments in learning; a shared social experience that provides the opportunity for students to encounter and explore novel things in an authentic setting. **“Field trip is a substantive way to expand student’s horizons and allow them to learn experientially.”** Due to this reason Department of mathematics was arrange visit to “ Department of Mathematics in Dr. Babasaheb Ambedkar Marathwada University” in Aurangabad. 70 to 80 students participate in visit. Students seen Huge library in university, Digital System in lib.History Museum, it was very great experience for them. Dr.T.B.Dale giving more information of this place to students. Visit is best option to overcome stress of students .

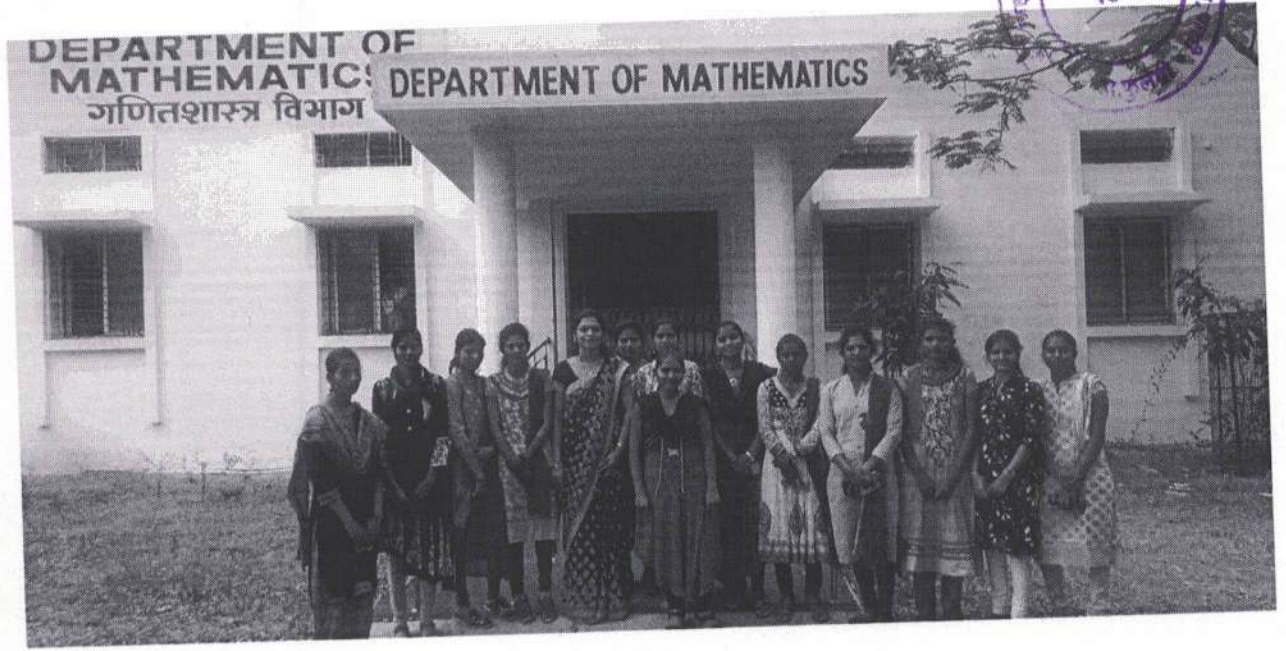

CONCLUSION

Majority of the responses show that there is lot of importance of field visit at higher level. It is not only helpful in effective learning but promote the qualities of leadership, discipline and self confidence among the students. Maximum respondents cleared that these field visit are beneficial for society and individuals and also promote the importance of culture and historical places. Short number of responses shows that after visit the students become able to write a short report, which enhances their observation and written capabilities as well.
