Department of Psychology

Group Discussion Report
Academic year 2018-19

The Department of Psychology use new technique, innovative trends to involve more and more students in teaching learning process. The aim of using these technique is to increase active participation in learning process. Presently our education system is student centered hence the department of psychology conduct class group discussion for students, because if only teacher speak in class and students remain silent, this process becomes one sided, to improve stage courage, to develop leadership, to promote to students for independent thinking, to develop fluency, to develop communication skill, to develop interest in subject, we conduct group discussion for student. It became part of our academic activity. On 07 August 2018, Department of Psychology organized a class group discussion in hall no. 22 for this activity 20 students were present.

Department of Psychology

Group Discussion Report
Academic year 2019 - 20

The Department of Psychology use new technique, innovative trends to involve more and more students in teaching learning process. The aim of using these technique is to increase active participation in learning process. Presently our education system is student centered hence the department of psychology conduct class group discussion for students, because if only teacher speak in class and students remain silent, this process becomes one sided, to improve stage courage, to develop leadership, to promote to students for independent thinking, to develop fluency, to develop communication skill, to develop interest in subject, we conduct group discussion for student. It became part of our academic activity. On 16 December 2019, Department of Psychology organized a class group discussion in hall no. 21 for this activity 20 students were participated and rest of the students were participated as an audience.

GROUP DISCUSSION

2021-22

In the academic year 2021-22 Dept. of mathematics arrange group discussion activity of students. we created three groups of students for the group discussion. Group discussion on study is essential for effective learning. In group discussion learning is shared and student participating in discussion are benefitted. GD is a forum where people sit together to discuss a topic with the common objective of finding a solution for a problem or an issue that is given.

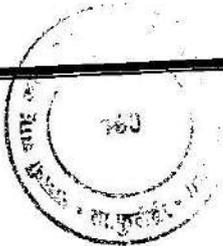

The skills that are usually Develop in a Group Discussion:

- 1)Communication Skills
- 2)Interpersonal Skills
- 3)Leadership Skills
- 4)Motivational Skills
- 5)Team BuildingSkills
- 6)Tolerance to Ambiguity
- 7)Listening skills
- 8)Presentation Skills
- 9)Analytical /Logical skills

To develop this all type skills in students due to this reason, In academic year 2021-22 Department of Mathematics Arrange Group discussion for all UG Students. Creating three Groups of students,Many Students participants in this competitions.

We are given some Topic to the students.

- 1) Should homework assignments of mathematics is good or bad for students
- 2) Mathematics is hard or not
- 3) Calculation without calculator are possible or not.

Head of Department Dr. T. B. Dale conduct the Discussion. We were given some rule to participants to follow in GD.

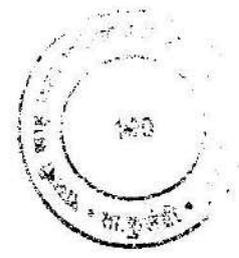

Dos and Don'ts in Group Discussion

On the day of GD,

1. wear formal clothes
2. Be confident but avoid being over confident
3. Talk sensibly. Avoid superficial talk
4. Listen carefully and speak only at the appropriate time
5. Be very sure of what you are speaking
6. Use easy to understand English
7. Speak loudly and clearly
8. Do not be deterred by other members aggressive or submissive behavior
9. Accommodate diverse view points
10. Put forth your points without being aggressive
11. Give importance to others view. However, stick to the point you have made.
12. Do not allow yourself to be diverted by other peoples points
13. Do not be distracted. Your concentration should be solely on the discussion
14. If you do not know something, keep mum Don't get excited/ aggressive during the discussion.
15. Try to maintain a balanced tone throughout time.

16. Try to contribute maximum throughout the discussion

17. Try to be the first and the last to speak

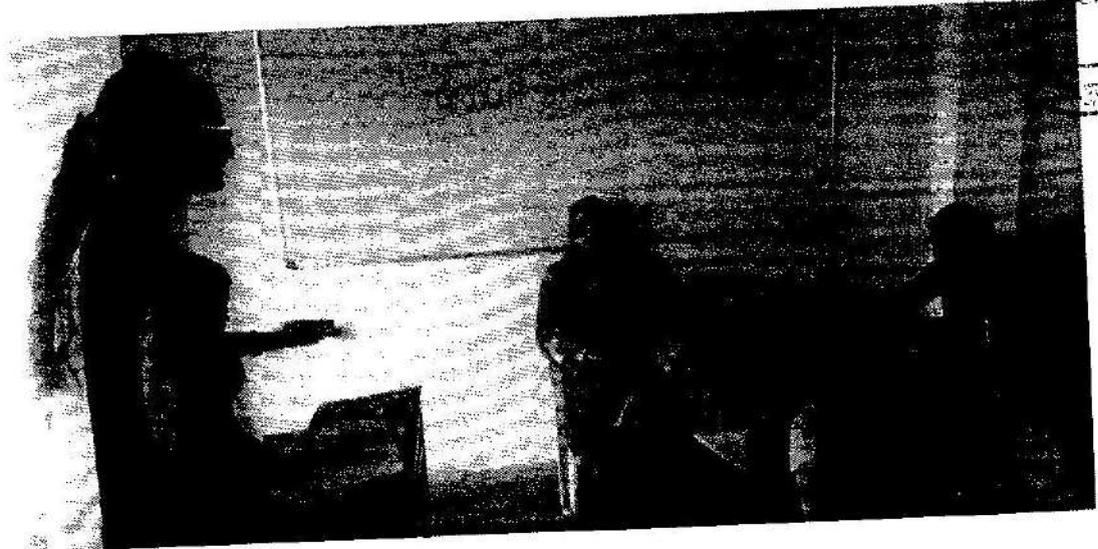

Department of math arrange this GD. Because students essay to know ,Group discussions are common in Corporate, Multinational Companies and have a variety of purposes, from planning an intervention or initiative to mutual support to problem solving to addressing an issue of local concern.
